

Dear Valued Client/s

The time has arrived for the lodgment of **2020 Tax Returns**.

**We are fully staffed and working full time.** However due to the Covid-19 pandemic we will not be conducting face to face interviews during the peak season, but will instead be able to have a one on one interview with you via, phone, skype, zoom or simply email or drop off your documents or upload them to our **Client Portal** so we can immediately attend to your return.

• **Additional Resources:**

- **James W Mann Finance.** Let us quote you on a better mortgage rate. No cost if we cannot save you money.
- **Our web page, [www.jwmann.com.au](http://www.jwmann.com.au).** Please refer to this new resource for updated information, and current newsletters.

- **This year Companies will not be issuing a paper PAYG Summary. You may be told it is in your MyGov Account. Any documents posted to the MyGov account will also be posted to our Tax Agent Portal, so we will get access to this. Therefore you do not need to deal with the MyGov Account.** As a result employers will need to finalize their declarations with the ATO by 14.7.20 if they have more than 20 employees or 31.7.20 if fewer than 19. Due to this, data needed for your return will **not be available till the end of July**, so doing your return in July runs a high risk it will be incomplete, resulting in an amendment or an audit.

- **News from the Budget: There wasn't one, it is planned for October!**

• **The year we all worked from Home.**

As a result of the Pandemic most people have been required to work from home from March to June 20. As a result home office expense claims will be significantly higher. There are 2 ways to make your claim. Actual cost, which will require elaborate record keeping of hours worked, apportion of electricity, phone and internet usage. To reduce the complexity the **ATO have introduced a Simplified method**, giving you a claim of 80c/hr to cover all home office Costs from 1.3.20. As a result it will only be required to record hours worked. As a consequence the ATO is expecting a **reduction in claims for work travel and laundry!**

- From 1.7.19 deductions for expenses for **holding Vacant Residential or Commercial Land**, including Interest will be denied. This will now form part of the Cost Base on Sale.
- This year all individuals under age 75 will be able to claim a tax deduction for personal super contributions. To be able to do this however it is necessary that a Letter of Intent for Superfund contributions is sent to the fund and acknowledged by them. The form is available through our office if required and is on our website too.
- Any businesses that make payments to employees **without withholding, or contractors with no ABN quoted, will not get a Tax Deduction for the payment.**
- The **Instant Asset write-off** for SBE's for 2020 has 2 levels of claim. For assets ready for use from 1.7.19 the Claim is \$30000.00. For assets ready for use from 12.3.20 to 31.12.20 the Claim is \$150000.00.
- **Super Caps for 2020 are unchanged:**
  - For all individuals Concessional Cap is \$25,000.00
  - For all individuals Non-Concessional Cap is \$100,000.00.

### **Individual Returns:**

- **Private Health Cover:** While we will have access to your Private Health details from the ATO we will need to confirm the Number of days in the year you held Private Hospital Cover.
- **Spouse Income:** Spouse income is needed for reporting purposes to enable your return to be completed.
- **New ATO Audit Methods.** Where a person is selected for Audit the ATO is now **contacting your employer directly** to confirm whether work related claims made are part of your job description and are necessary. I.e. Work travel, using home office etc.
- **ATO Audit focus:** The ATO has increased data matching looking at: property transactions, online selling (e.g. ebay), insurance of valuable assets, Australians working overseas, work travel claims and high work related expenses.
- **Rental properties:** The ATO is continuing its scrutiny of Rental Properties, flagging an extensive audit program. Therefore, extra care in making claims is necessary, particularly when there has been some private use of the property. Details of all types of rental expenses claimed are now submitted to the ATO with the return, making the need for substantiated claims even greater. **The ATO will give extra attention to Depreciation claims and Loan Refinancing!** Additional scrutiny for **holiday homes**, and repairs to **newly acquired property**.

## Business Returns:

- **Superannuation compulsory contributions** remains at **9.5%**. This must still be **paid quarterly**, and within 28 days, or it will result in penalties and a denial of tax deduction. All entitlements from 01.07.16 must now comply with the Superstream measures, which require all payments to be both reported and paid electronically to the super fund. Small businesses which employ less than 20 employees can make a single electronic payment to a clearing house who will then distribute the payments to the individual funds. Please see our web site for further information.
- **One Touch Payroll**. This is now in full operation requiring all employers to report to the ATO in an acceptable electronic format. If you are experiencing any difficulty with this please give one of our consultants a call.
- **Extended reporting of Contractors From 1.7.19** it will cover **Security providers, Road freight Transport and Computer Design and Services**.
- **Increased powers** to the ATO enable them to **report outstanding debt**, greater than \$10,000.00, for more than 90 days where no payment plan is in place, to **credit reporting agencies**. This could severely impact upon the day to day operations of the business.
- **ATO Audit Focus**: The ATO has flagged their audit activity to focus on businesses **outside their industry benchmark ratios, PSI; Uber Drivers and Airbnb operators**, and will also focus on your liability to pay Super, PAYG and WorkCover.
- They will also be commencing an attack on **Div 7A** loans next year, so it is vital to clean up shareholder loan accounts.
- **Work related claims**: This year the ATO are requiring all descriptions of every work related claim be transmitted to the ATO allowing tight scrutiny. This will include attacking the claim for **work laundry and all Motor Vehicle Travel**. The ATO are hoping people will be put off from making a claim, however do not be discouraged from making a valid claim. To ensure that you keep the claim in an audit, you will need to satisfy the substantiation requirements of the ATO and sign a declaration of your responsibility to the content of your return. **Work related claims must be substantiated** with receipts if their balance is over \$300.00. It would help our process if you compiled your receipts and other records of your deductible expenses before making your appointment. This may include Motor Vehicle log books, travel and usage diaries. Much more detail is required this year in the tax return, showing the types of claims made. We continually undergo training to keep abreast of these changes and strive to ensure that you receive the **maximum claims** you are entitled to.

**Documents** you need to email in or bring to the consultation may include, pension or benefit statements, documents related to all bank accounts or other financial investments such as Term Deposits or share dividends, details of family income, employee share details.

**GST clients** note that the changes to the new tax system are putting greater demands upon you. We are able to provide GST Specific manuals or software that tracks the GST credits you can claim back. If you have not already got one of these, call our office to ensure you do not miss out on your GST claims.

**Personal Services Income**, commonly called the New Contractor Law, will be a big issue this year and will significantly add to the complexity of affected returns. The rules are complex and need to be treated on an individual basis.

**Return Charges**: The fee for preparation and lodgment of your Basic Individual Return is \$150.00 GST inclusive. Additional charges apply for extra schedules and complex issues. These may include:

- |                              |                                      |                                       |
|------------------------------|--------------------------------------|---------------------------------------|
| ▪ Rental Property            | ▪ Contractor Income                  | ▪ Business Losses and Deferred Losses |
| ▪ Capital Gains Calculations | ▪ Rebates for Pensions and Annuities | ▪ Employee Share Schemes              |
| ▪ PSI Schedules              | ▪ Low Cost Pools                     | ▪ Depreciation Schedules              |
| ▪ Termination Payments       | ▪ Investments and Trust Income       | ▪                                     |

We also provide a complete range of other services outside of tax preparation, such as: **Business Planning, Advice and Investment Strategies. Leasing and HP Finance** at competitive rates are also now available. We strive to have our system as up to date as possible, so please bring along your most current **email address**.

To make an appointment for your Tax Return please ring **Karen on 9314 6011, or office@jwmann.com.au**

Yours Faithfully,  
Peter J. Smith - FCPA

# 2019/20 Individual Tax Return Checklist

## Your Checklist

- Claims for deductions ✓
- Receipts for deductions ✓
- Car claims and log books ✓

*Please review the information below and contact our office if you need assistance.*

## Tax saving strategies prior to 1 July 2020

*A good strategy to reduce tax payable is normally to accelerate any income tax deductions into the current income year, which will reduce overall taxable income in the current year. Despite this, for the 2020 tax season, tax planning may require consideration of an individual's potentially reduced income as a result of the COVID-19 pandemic (where applicable), in which case a decision may be made to defer expenditure.*

### Resident taxable income thresholds for the 2019/20 income year

### Tax Payable<sup>1</sup>

0 – \$18,200	Nil
\$18,201 – \$37,000	19% of excess over \$18,200
\$37,001 – \$90,000	\$3,572 + 32.5% of excess over \$37,000
\$90,001 – \$180,000	\$20,797 + 37% of excess over \$90,000
\$180,001 and over	\$54,097 + 45% of excess over \$180,000

1. The Medicare levy of 2% generally applies in addition to these rates.

### Common claims made by individuals

The following outlines common types of deductible expenses claimed by individual taxpayers, such as employees and rental property owners, plus some strategies that may be adopted to increase deductions for the 2019/20 income year.

#### 1. Depreciable plant, etc, costing \$300 or less

Salary and wage earners and rental property owners will generally be entitled to an immediate deduction if certain income-producing assets costing **\$300 or less** are purchased before 1 July 2020.

Some purchases you may consider include:

- books and trade journals;
- briefcases/luggage or suitcases;

- calculators or electronic organisers;
- electronic tablets;
- software;
- stationery; and
- tools of trade.

#### 2. Clothing expenses

Individuals can purchase or pay for work-related clothing expenses prior to the end of the income year such as:

- compulsory (or non-compulsory and registered) uniforms, and occupation specific and protective clothing; and
- other associated expenses such as dry-cleaning, laundry and repair expenses.

### 3. Self education expenses

Individuals could consider prepaying self education items before the end of the income year:

- ◆ course fees (but not HELP repayments), student union fees, and tutorial fees; and
- ◆ interest on borrowings used to pay for any deductible self education expenses.

Also they could bring forward purchases of stationery and text books (i.e., those which are not required to be depreciated).

### 4. Other work-related expenses

Employees can also prepay any of the following expenses prior to 1 July 2020:

- union fees;
- subscriptions to trade, professional or business associations;
- magazine and professional journal subscriptions;
- seminars and conferences; and
- income protection insurance (excluding death and total/permanent disability).

*Note: When prepaying any of the expenses above before 1 July 2020, ensure that any services being paid for are to be provided within a 12 month period that ends before 1 July 2021. Otherwise, the deductions must generally be claimed proportionately over the period of the prepayment.*

### Information Required

We will need you to provide information to assist us in preparing your income tax return. Please check the following and provide any relevant statements, accounts, receipts, etc., to help us prepare your return.

#### Income/Receipts:

- details of your employer(s) and wages;
- lump sum and termination payments;
- government pensions and allowances;
- other pensions and/or annuities (including JobKeeper payments);
- allowances (e.g., entertainment, car, tools);
- interest, rent and dividends;
- distributions from partnerships or trusts; and
- details of any assets sold that were either used for income-earning purposes or which may be liable for capital gains tax ('CGT').

#### Expenses/Deductions (in addition to those mentioned above):

- ◆ award transport allowance claims;
- ◆ bank charges on income-earning accounts (e.g., term deposits);
- ◆ bridge/road tolls (travelling on business);
- ◆ car parking (when travelling on business);
- ◆ conventions, conferences and seminars;
- ◆ depreciation of library, tools, business equipment (incl. portion of home computer);
- ◆ gifts or donations;
- ◆ home office running expenses:
  - cleaning
  - cooling and heating
  - depreciation of office furniture
  - lighting
  - telephone and internet;
- ◆ interest and dividend deductions:
  - account keeping fees
  - ongoing management fees
  - interest on borrowings to acquire shares
  - advice relating to *changing* investments (but *not* setting them up);
- ◆ interest on loans to purchase equipment or income-earning investments;
- ◆ motor vehicle expenses (work related);
- ◆ overtime meal expenses;
- ◆ rental property expenses – including:
  - advertising expenses
  - council/water rates
  - insurance
  - interest
  - land tax
  - legal expenses/management fees
  - genuine repairs and maintenance
  - telephone expenses;
- ◆ superannuation contributions;
- ◆ sun protection items;
- ◆ tax agent fees;
- ◆ telephone expenses (business); and
- ◆ tools of trade.

## 2019/20 Year-end Checklist for Business

Many of our business clients like to review their tax position at the end of the income year and evaluate any year-end strategies that may be available to legitimately reduce their tax. Traditionally, year-end tax planning for small businesses is based around two simple concepts (i.e., Accelerating business deductions and deferring income). This year, consideration will obviously also need to be given to the impact of the COVID-19 pandemic on specific businesses.

Small Business Entities ('SBEs') (i.e., Businesses with an aggregated turnover of *less than \$10 million*) often have greater access to year-end tax planning due to particular concessions that only apply to them. Taxpayers that qualify as an SBE can generally pick and choose which of the concessions they wish to use each year (although see below regarding the simplified depreciation rules). The following are a number of areas that may be considered for **all** business taxpayers.

### Maximising deductions for non-SBE taxpayers

Non-SBE business taxpayers should endeavour to maximise deductions by adopting one or more of the following strategies:

- Prepayment strategies;
- Accelerating expenditure; and
- Accrued expenditure.

#### Prepayment strategies – non-SBE

Any part of an expense prepayment relating to the period up to 30 June is generally deductible.

In addition, non-SBE taxpayers may generally claim the following prepayments in full:

- expenditure under \$1,000;
- expenditure made under a 'contract of service' (e.g., salary and wages); or
- expenditure required to be incurred under law.

*Note: Prepayments can be a little confusing, so before you commit to making a payment please feel free to call us with any queries or assistance if required.*

### Accelerating expenditure – non-SBE

This is where a business taxpayer brings forward expenditure on regular, on-going deductible items. Business taxpayers are generally entitled to deductions on an 'incurred basis'. Therefore, there is generally no requirement for the expense to be paid by 30 June 2020 (i.e., as long as the expense has genuinely been 'incurred').

#### Checklist

The following may act as a checklist of possible accelerated expenditure:

- Depreciating assets** – Non-SBEs that have an aggregated annual turnover of *less than \$50 million* can claim an immediate deduction for eligible assets costing *less than \$30,000* for any assets acquired and first used (or installed ready for use) from 7:30pm (AEDT) 2 April 2019 to before 12 March 2020.

Non-SBEs that have an aggregated turnover of *less than \$500 million* can claim an immediate deduction for eligible assets costing *less than \$150,000* for any assets acquired from 7:30pm (AEDT) on 2 April 2019 and first used (or installed ready for use) from 12 March 2020 to 30 June 2020.

Depreciating assets costing \$100 or less can be written off in the year of purchase and depreciating assets costing *less than* \$1,000 can be allocated to a low value pool and depreciated at 18.75% (which is half of the full rate of 37.5%) in their first year, regardless of the date of purchase.

Finally, a **50% accelerated depreciation** concession may apply for new eligible assets that start to be held and used (or installed ready for use) from 12 March 2020 to 30 June 2021.

- Repairs.**
- Consumables/spare parts.**
- Advertising.**
- Fringe benefits** – any benefits to be provided, such as property benefits, could be purchased and provided prior to 1 July 2020.
- Superannuation** – contributions to a complying superannuation fund, to the extent contributions are actually made (i.e., they cannot be accrued but must be *paid* by 30 June).

### Accrued expenditure

Non-SBE taxpayers (and many SBE taxpayers – refer below) are entitled to a deduction for expenses incurred as at 30 June 2020, even if they have not yet been paid.

The following expenses may be accrued:

- ◆ **Salary or wages and bonuses** – the accrued expense for the days that employees have worked but have not been paid as at 30 June 2020.
- ◆ **Interest** – any accrued interest outstanding on a business loan that has not been paid.
- ◆ **Commissions** – where employees or other external parties are owed commission payments.
- ◆ **Fringe benefits tax ('FBT')** – if an FBT instalment is due for the June 2020 quarter, for example, but not payable until July, it can be accrued and claimed as a tax deduction in the 2020 income year.
- ◆ **Directors' fees** – where a company is definitively committed to the payment of a director's fee as at 30 June 2020, it can be claimed as a tax deduction.

### Maximising deductions for SBE taxpayers

Deductions can be maximised for SBE business taxpayers by **accelerating expenditure** and **prepaying** deductible business expenses.

### Accelerating expenditure – SBE

In addition to accelerating other expenditure items, SBE taxpayers can choose to write-off depreciating assets costing *less than* **\$30,000** (or potentially **\$150,000**) in the year of purchase.\*

Assets costing more than the relevant immediate asset write-off threshold are allocated to an SBE general pool and depreciated at **15%** (or potentially at **57.5%** for eligible new assets subject to the 50% accelerated depreciation concession) in their first year. Therefore, where appropriate, SBE business taxpayers should consider purchasing/installing these items by 30 June 2020.

*(\*) The immediate asset write-off threshold was originally increased to 'less than \$30,000', for eligible assets first used or installed ready for use between 7:30pm (AEDT) 2 April 2019 and 30 June 2020.*

*The threshold was subsequently increased to \$150,000 for eligible assets first used or installed ready for use from 12 March 2020 to 30 June 2020 as a result of the Government's response to the COVID-19 pandemic.*

### Prepayment strategies – SBE

SBE taxpayers making prepayments before 1 July 2020 can choose to claim a full deduction in the year of payment where they cover a period of no more than 12 months (ending before 1 July 2021).

Otherwise, the prepayment rules are the same as for non-SBE taxpayers.

The kinds of expenses that may be prepaid include:

- Rent** on business premises or equipment.
- Lease payments** on business items such as cars and office equipment.
- Interest** – check with your financier to determine if it's possible to prepay up to 12 months interest in advance.
- Business trips.**
- Training courses** that run on or after 1 July 2020.
- Business subscriptions.**
- Cleaning.**

### Information Required

This is some of the information we will need you to bring to help us prepare your income tax return:

- Stock-take details as at 30 June 2020.
- Debtors listing (including a list of bad debts written off) as at 30 June 2020.

*Note: In order to claim a deduction, the debt must be written off on or before 30 June.*

- Creditors listing as at 30 June 2020.
-
